BONUS ACTIVITY - Ironman Aid Station - September 9, 2007

This year's Ford Ironman Madison Triathlon will be held Sunday September 9, 2007 so sign up *now* at the Ironman website below. Compete the forms and choose **Run Aid Station #4 Observatory & Elm** (*note: although the official address for our station is listed as Observatory & Elm, the actual location is a block to the north of that intersection at the Porter Boathouse, 680 Babcock Drive*).

The official 2007 Ironman Aide station #4 theme is: **Ageing Hippies/the 60s!** (Puppy Poker came up with the idea). Ours is actually a dual station -- we set up tables on both sides of Porter Boathouse as the Ironman course runs by the building on both sides -- so we need *twice* the number of volunteers as the other stations! For people who haven't

participated before, Ironman is a major international sporting event – everyone I've met has come away saying it was a great experience. These are big aid stations with lots of tables of food and drinks. Each volunteer receives an official Ironman volunteer T-shirt upon the end of his/her shift. This year when you signup online you'll be able to select your t-shirt size.

If anyone would like a tie-dye t-shirt for the Ironman station next weekend, all you have to do is respond to the shirt email by Tuesday noon with your name & size. Carrot and Wet Willie have graciously offered to do them this week. Cost will be no more than \$5 payable in cash to Carrot on that Sunday. We'll take orders at the Labor weekend hash.

HASH HISTORY – RUN #1565 – The Annual Tubing Float Run

Although it poured rain in Madison, the weather was fabulous for the annual run and tubing float on the Wisconsin River near Spring Green. Due to technical problems, everyone was required to bring their own floatation device. A pack of about ten hashers dropped their devices at the Highway 14 bridge before heading to the start of the run down river at the Highway 23 bridge. There was much poo-pooing of the wussie hashers who claimed they would be present, but who didn't show up. The highly shiggified trail was set by hares RD, and his son, CARRY OUT. There was one beer check near civilization before the run finished at the Highway 14 bridge, where the floating began. A large group of kids from Chicago were launching as the hash prepared for their trip and many hashers had lots of advice for the inexperienced kids. Some of the kids tipped their canoes so often they gave up and just waited at the bridge. (Never underestimate the value of others who make you look good.) The hashers eventually launched and completed the float without any loss of life or beer. Probably the most unusual float device was COMES 'N GOES inflated lobster. The On-On was to be held on the sandbar at the finish of the float, but the location was moved to the more favorable American Players picnic grounds. UNDERTOKER, who missed the run, but made it for the float and penned the following summary from his position on a truce ship just off shore.

When up spoke a Hasher named High Stool
Who admitted he hated to get too cool
He said floating needs rays
For bright sunny days
Or else you all must be fools

Then the hasher named Beernuts did lecture That
the Hash did not allow weather conjecture
The Float would go on
Whether lightning or balm
But himself, he was not up to the adventure

The Carrot was also feeling quite frisky
And chimed in that Stool was a wussie
But when the bell rang to float
In a tube or a boat
She was not to be found...what a pussy... Cat

The Hash departed on their quest
Knowing they all soon would be wet
They arrived at the river
With no trace of a shiver
On rafts in the river they then set

They floated with every contraption
Including something that looked like a lobster
A neon green monster
Rafts and a songster
It was quite a site of hob nobsters

The float was complete with a beer boat
As the warriors drank and told jokes
To the end they did go
With a warrior's beer glow
Nothing would stop the 2007 Hash Float

The warriors included Nut and Running Disaster
Slow Hand and Rides the Wild Stallion
Undertoker, ICUF, and Dribs
Cums and Gos and some hasher kids
Named Brian and Good in the Saddle

So that's the end of the story
'Cept of course the food and the glory
All went home quite content
To relive the event
That would be remembered always quite warmly

HASH HISTORY – RUN #1566 – The Annual PornFest Run

CORNHOLIO, with help from co-hares WET WILLIE and 3 BANGHER, set the annual PornFest Run in Sun Prairie a week after the actual Sun Prairie Corn Fest. Among those present were visitors from the Agana, Guam Hash, MENTRUATING MINSTREL (Hash Tyrant), TAMPON (Hash Songmaster), PUSSY CONTROL, LEGLIFTER, SHE'S KABOB, Just Kristin, Just Tiffany and Just Danielle. They were all in town for the wedding of MENTRUATING MINSTREL and PUSSY CONTROL who wore her wedding dress on the run. There were also new boots Just Jack, Just Tony and Just Tabitha who has attended an On-On before. The trail started at Patrick Marsh Middle School at the east edge of Sun Prairie and headed into the marsh area for most of the run. There were plenty of places to get wet feet due the recent rains, but nothing deeper than waist high. The hares did a good job of moving the pack along but even CORNHOLIO got lost a few times, ranking him among several JFLs. There were at least two beer checks on the trail and most of the pack made it to both despite the sometimes ambiguous trail. The On-On was at CORNHOLIO's house in downtown Sun Prairie where there was plenty of beer and corn. Among the highlights of ceremonies was toasting the visitors and the wedded couple, scolding the hares, naming Just Kristen, CROTCHDUSTER and welcoming the new boots. The visiting hashers had several good new songs and the hoopla continued well into the evening until little tiny flying insects drove everyone inside or away.

HASH HISTORY – RUN #1563 – BEARABOBS Never See 49 Again Birthday Run

BEARABOBS set her “Never See 49 Again” birthday run from Baxter Park near her home on the south side with help from her sister Just Ellen. About 20 hashers showed up on this rainy day, some dressed as dogs in honor of the special day. The best dog costume was SHOWME who showed up with dog nose and ears, and a cone shaped E collar around her neck to prevent her from chewing at the cast on her broken foot. LORENA CARROT and BONE AGAIN planned to walk the route and took umbrellas with them for their stroll and got the Mary Poopins award. The trail was set mostly on the nearby Nine Mile Springs e-way and a bit through the local neighborhood. Half Cracked and Cums ‘N Goes were the FRBs while HEAVE HO and HIMA whined through most of the run. The first alcohol check consisted of some girly sweet wines served by Just Ellen and everyone teased BEARABOBS about the choice. They also drank it all, even the portion the hares had planned for the second alcohol check so Just Ellen had to make a beer run. The trail continued around the e-way and crossed a few of the bridges including a dangerous bridge check at one location. There was a second beer check and then just a short jog back to the start. The On-On was at BEARABOBS’ house where the very wet hashers changed into dry things in the garage and there was a lingering scent of wet hasher in the air. The food was hot dogs and beans. Just Ellen had to make another beer run for ceremonies. Highlights included wretched excess for those who ran Waunafest, SOGGY, READY, WILL HO and UPLOADER while the super-double-triple wretched excess went to LORENA and BEARABOBS for putting a furry rodent on the birthday cake. RD and WHITE CLIFFS had to fight over the doggy style award and the seldom seens were BUTT RELISH and BUTT BOB. In the end the police scanner wasn’t quite as interesting as in the past, there was no hot tubbing (ergo: no naked hot tubbing) but there was almost as much chaos as usual for a BEARABOBS run.

HASH HISTORY – RUN #1564 – The Annual Paavorgasmic Weekend

A significant number of Madison hashers gathered in downtown Hurley Friday afternoon and evening FOR THE START OF Paavo 2007. After checking in at race headquarters and settling the relay teams, most headed to Taconelli’s Restaurant in Ironwood for the prerace dinner. Some finished dinner in time to make the Paavo torch lighting ceremony in downtown Hurley. Others made it later to “light their own torches” for the traditional PrePaavo Pub Crawl. As usual, the crawl wisely began at the upper end of Silver Street and proceeded downhill through every low bar, dive and honky-tonk in the city. Early in the event, some of the runners who expected to get up before noon sneaked away. Fortunately they were replaced by others who showed up in town a little late. The last to join the crowd was MOREMEN and her gang Just Kevin and Just Teresa. The highlight of the evening (strip joints) was a reappearance of the athletic stripper who did such magic on the pole that she didn’t need to take her clothes off. Otherwise the strip joints were rather dull this year, leaving hashers to run frantically from bar to bar, or in the case of the visiting Y TOOTH, to doze off sitting in the bouncers chair. After a thorough inspection of each strip joint, the crawlers trickled away and the night ended at a reasonable time around 2:00 AMish. The next morning, over 30 hashers prepared to engage the Paavo race course (see results chart below) along with hasher spectators. The finish chute was back on Silver Street after road construction last year. The weather was overcast with a little rain but all seemed to go well on the race course. Only a few headed to Ricci Park for the post race awards picnic. Others were off to Three Lakes for the Paavorgasmic Saturday afternoon and evening at the COL’s and ICUF’s lakefront cabin. The weather was a bit blustery with intermittent rain but this didn’t stop the hash from lounging on the shores of Round Lake and the hashers made the best of it by puttering with their tents and paddling their kayaks. After many arrivals, much setting up of tents and a large gathering of kayaks, the beer began to flow and dinner preparations were underway. The weather cleared up and it was a beautiful evening when ICUF once again served the fantastic fish boil dinner with assistance from SLOW HAND. Ceremonies were conducted after dinner and highlighted the visitors from Atlanta, GOATIE, PUMPT’KIN, SUPERSUCK, JUSLICKSDICKS AND PUSH OVER, the visitors from Virginia, BUSH WHACKER and BLOW PHISH, with Y TOOTH visiting from the Navy, and NUTCRACKER visiting from Texass. There were also a huge number of “Paavo Virgins” to celebrate along with a few awards for some of the relay teams. Later, another round of Campfire Confessions was conducted. This involves everyone getting up to say something to entertain the proverbial “peanut gallery” of drunken hashers. As most were huddled around the campfire, there were some naked dashes between the sauna and a dip in the lake, and eventually another “annual naked run to assault the neighbors” by about eight hashers. This night also ended at a reasonable time around 2:00 AMish. Sunday morning started with lots of coffee and a great breakfast including bagels with Alaskan salmon cream cheese spread and several exotic cheeses. Then it was time for the Running Bare Triathlon. Most of the group headed off on the three mile run to the point just across the lake from the cabin. A handful of hashers swam back while others got a tow from several naked kayakers (another tradition is born) while the COL and ICUF patrolled in their power boat. After much picking up, everyone left to return home. **THANKS AGAIN TO ICUF AND THE COL FOR A GREAT PAAVORGASMI!!!!**
